WHAT IS CLAIMED IS:

- 1 1. A liquid crystal display comprising:
- 2 a liquid crystal display panel;
- a lamp unit including a lamp and a lamp holder
- 4 receiving said lamp;
- 5 a light guide plate; and
- a case assembly including a rear case behind said
- 7 liquid crystal display panel, said rear case having said
- 8 lamp unit and said light guide plate on a surface thereof
- 9 in a manner to hold them in operative relationship, with
- 10 said lamp unit kept independent from said light guide
- 11 plate.
- 1 2. The liquid crystal display as claimed in claim 1,
- 2 wherein said crystal display panel includes a substrate,
- 3 and said rear case is formed with a storage portion
- 4 receiving said substrate and has a lid concealing said
- 5 storage portion.
- 1 3. The liquid crystal display as claimed in claim 1,
- 2 wherein said rear case is formed with an opening
- providing an access to said lamp holder.
- 1 4. The liquid crystal display as claimed in claim 1,
- 2 wherein said lamp holder includes a reflector partly
- 3 surrounding said lamp.
- 1 5. The liquid crystal display as claimed in claim 1,
- wherein said rear case includes elements locating said
- 3 light guide plate on said surface at a predetermined
- 4 position with respect to said lamp unit.
- 1 6. The liquid crystal display as claimed in claim 5,

- 2 wherein said locating elements are provided to locate
- 3 said liquid crystal display panel as well as said light
- 4 guide plate.
- 1 7. The liquid crystal display as claimed in claim 1,
- 2 wherein said rear case includes means for urging said
- 3 light guide plate into close relationship with said lamp
- 4 unit.
- 1 8. The liquid crystal display as claimed in claim 7,
- 2 wherein said urging means include a bias element arranged
- 3 to press said light guide plate toward said lamp holder.
- 9. A method for assembling a lamp unit, a light guide
- 2 plate and a liquid crystal display panel, comprising:
- using a rear case to have a lamp unit on a surface
- 4 of said rear case;
- 5 locating a light guide plate on said surface in
- 6 operative relationship with said lamp unit;
- 7 placing a liquid crystal display panel over said
- a light guide plate, said liquid crystal display panel
- 9 including a substrate;
- 10 placing a front case over said liquid prystal
- 11 display panel to cooperate with said rear case to form
- 12 a case assembly;
- 13 putting said substrate into a storage portion on the
- 14 backside of said rear case; and
- placing a lid to conceal said storage portion and
- 16 said substrate.
